Colloquium

Dr. Nigel Kalton

Professor of Mathematics
Department of Mathematics
University of Missouri-Columbia

The Role of Idle Curiosity in Mathematics

ABSTRACT

He will describe how a student's question about a problem in matrix theory sparked a line of research about idempotents in Banach algebra.

Thursday, April 19, 2001
2:00 p.m.
Yates 215

Students are encouraged to attend.
There will be cookies and conversation afterwards in Yates 210
