DEPARTMENT OF MATHEMATICS

Colloquium

Steele Stewart, FSA, MAAA
Actuary
Blue Cross and Blue Shield of Kansas

An Introduction to the Actuarial Profession

Abstract

An introduction to the profession, general skill set, type of work, different professional tracks, and the examination process will be discussed in detail. In addition, the speaker will talk about the advantages of starting early, the compensation structure, the speakers experience in the industry, and the types of projects he is involved with. Finally, he will talk about “out of the box (election results?)”.

Thursday, March 8, 2001
2:00 p.m.
Yates 225

Students are encouraged to attend.
There will be cookies and conversation afterwards in Yates 210
