Probability and Statistics
Spring 2004
Course Syllabus

Instructor: Dr. Jayawardhana Phone: 235-4414
Office: 207 Yates Hall e-mail: ananda@pittstate.edu
Office Hours: Check the timetable below
Class web page: http://faculty.pittstate.edu/~ananda/PROBSTAT/probstat.html

Text: Probability and Statistical Inference (Sixth Edition) by Hogg and Tanis, Prentice Hall

Prerequisites: Calculus II

Course Objectives:
The objectives of this class are to learn in detail about the concept of probability, discrete and continuous probability distributions, and sampling distribution theory. This course will provide a mathematical background to understand some probabilistic models and their applications in many modern fields.

Coverage:
Chapter 2: Probability (2.1-2.5)
Test 1

Chapter 3: Discrete Distributions (3.1-3.5)
Test 2

Chapter 4: Continuous Distributions (4.1-4.5)
Test 3

Chapter 6: Sampling Distribution Theory (6.1-6.4)
Test 4

Final exam will be comprehensive.

Evaluation: Hour Tests = 300 points
Homework = 100 points
Quizzes = 100 points
Final = 200 points

Grading Scale:
90% - 100% = A
80% - 89% = B
70% - 79% = C
60% - 69% = D
<60% = F

Instructor keeps the right to lower the scale if necessary.
Regular attendance is expected, but it is not counted in your grade. There will be four one-hour tests and the lowest grade among them will be dropped. Exam dates will always be announced at least two class sessions ahead of time. The last in-class exam may be given during the last week of classes. There will be at least one quiz every week. No make-up will be given for these quizzes unless prior arrangements are made with the instructor, but the two lowest scores from the quizzes will be dropped. Daily homework assignments will be made. Homework will be collected on the due date and all the problems will be graded. Late homework will not be accepted. At the end, quizzes and homework will be scaled to 100 points each. No tests will be made up except for absences due to official university activities or health problems with a Dr.’s excuse. If you have a special need addressed by the American with Disabilities Act, please notify me immediately so that appropriate accommodations can be provided.

* Note that from 2.00 p.m. to 4.00 p.m. there are other commitments such as independent studies, departmental meetings, departmental colloquia etc. You are encouraged to use the office hours allocated before 2.00 p.m. If my office hours conflict with your other classes please let me know.
Other Issues

Please take clear notes.
Please review required calculus material.
Please do all the homework and turn in on due date.
Please let me know if I am going faster than your pace.
Please participate in class activities.
Please ask questions in class, after the class or in my office.
Please answer my questions and participate in class.
Please make friends in class and share notes, study together etc.
Please use my office hours anytime you need help. I care about you and your success.
I am open to your reasonable suggestions.
