Instructor: Dr. Jayawardhana
Office: 207 Yates Hall
Office Hours: Check the timetable below

Text: Analytic Trigonometry with Applications (Seventh Edition) by Barnett, Ziegler, and Byleen.

Prerequisites: Math 110 or Math 113 (College Algebra)

Coverage: Chapter 1
         Chapter 2
          Test 1
         Chapter 3
         Chapter 4
          Test 2
         Chapter 5
         Chapter 6
          Test 3
         Chapter 7
          Test 4

Final exam will be comprehensive.

Evaluation: Hour Tests = 300 points
            Homework = 100 points
            Quizzes = 100 points
            Final = 200 points

Grading Scale:
   90% - 100% = A
   80% - 89%  = B
   70% - 79%  = C
   60% - 69%  = D
   <60%       = F

Instructor keeps the right to lower the scale if necessary.

Regular attendance is expected, but it is not counted in your grade. There will be four one-hour tests and the lowest grade among them will be dropped. Exam dates will always be announced at least two class sessions ahead of time. The last in-class exam
may be given during the last week of classes. There will be at least one quiz every week. No make-up will be given for these quizzes unless prior arrangements are made with the instructor, but the two lowest scores from the quizzes will be dropped. Daily homework assignments will be made. Homework will be collected once a week and all the problems will be graded. At the end, quizzes and homework will be scaled to 100 points each. No tests will be made up except for absences due to official university activities or health problems with a Dr.’s excuse. If you have a special need addressed by the American with Disabilities Act, please notify me immediately so that appropriate accommodations can be provided.
